I N C O R P O R A T E D

## Engineered Efficiency's Statement of Qualifications

Engineered Efficiency, Inc. has been working with Civil 3D since *before* its initial “preview” release in 2003. Below is a list of our qualifications and accomplishments.

### Real-World Experience:

EE is owned and operated by **Licensed Professionals** with extensive time in industry. We understand what you are trying to accomplish.

### Civil 3D Users:

Our entire technical staff has **completed real projects using Civil 3D**, not just canned training projects.

### History with Civil 3D Development:

We have worked with Civil 3D since before its release in 2003 and have **worked with the Autodesk Civil 3D development team** to troubleshoot pre-releases; create the NCS templates that ship with Civil 3D; create best-practices guides included in the Help files; and provide feedback and professional opinions about product features and functionality.

### Expert Authors:

Since Civil 3D 2008 **we have written the “Mastering Civil 3D”** and “Introducing Civil 3D” titles for Wiley/Sybex. **We created the Civil 3D Autodesk Official Training Courseware “Solution Series”** which includes the four titles Residential Grading; Designing Intersections and Cul-de-sacs; Sustainable Design; and Creating and Managing Plan Sets. Additionally, we’ve authored nearly a **dozen Civil 3D whitepapers** for Autodesk, written monthly magazine columns, and written several feature articles.

### Train the Trainers:

EE created the original Civil 3D Implementation Certified Expert (ICE) course and **we trained nearly one hundred of the top reseller technical staff**. For the past several years, **EE has created the training material used at Autodesk’s annual “Tech Camps”** where reseller technical staff go to learn how to use the latest releases of Civil 3D.

### Expert Consultants:

We have worked with Autodesk Consulting to provide **high-end Civil 3D services** for key clients, including Jacobs Carter Burgess; Quebec DOT; Texas DOT, US Bureau of Reclamation; Pulte Homes; and Metropolitan Water Reclamation District of Greater Chicagoland, and many others.

### Expert Instructors:

EE has created and taught some of the **most popular Autodesk University classes**. Our staff has won **awards for technical excellence** in curriculum creation and we consistently receive **outstanding feedback** regarding our custom courses.

### References:

Our goal is **complete client satisfaction**. If you'd like to speak with one of our clients, please let us know as many are willing to share their EE success stories
